### AN OVERVIEW OF ROME

Rome, the Eternal City, has survived and retained its political, religious and artistic significance for nearly 3,000 years. Legend has it that it was founded by Romulus in 786 BC, but there has been evidence of an even earlier existence. The Julius Caesar period, (aka) the Roman Empire, had power and control for hundreds of years, but coups and fighting divided it all and so the fall of the Roman Empire became a very big part of the world's history. The Roman Catholic Church was always the heart of Roman history and was essential in creating leadership in Rome. In 1929 Mussolini, under the Lateran Treaty, gave the pope full sovereignty over what is now the world's smallest country. The Vatican, which is across the river to the West, remains a city within a city. The Pope has his residence and the Catholics have their spiritual center. The Vatican's history has attracted and will always attract millions, making tourism the major industry of Rome. The city houses some of the world's most famous paintings, sculptures, and monuments.

Rome offers details about its past constantly. It makes one always remember that the city was home to two great worldly movements - the Roman Empire and the Catholic Church. In the mid 1920s when Mussolini descended on Rome, he formed the first Fascist government. The Partigiani (the Italian resistance) forced the majority of the Italians to support the Allies. Rome was declared an open city and was spared from major disaster. Rome became the center of the Italian government and continued to grow. The city's historic center is Centro Storico. Nearby are the ancient Roman monuments that well describe the Circus Maximus, the Colosseum arena, the Appian Way, the Catacombs, etc. While Rome is a vast city, its historic sights are all within walking distance. Rome is a phenomenal concentration of history, religion, shopping, touring, camera-clicking visitors, traffic, and so much more. It would take years to cover all of Rome and appreciate its past, so it is suggested that one makes plans to return.

According to legend, Rome was founded in 753 BC by twin sons Romulus and Remus who were raised by a she-wolf. During its twelve-century history, the Roman civilization shifted from a monarchy to an oligarchic republic to an immense empire. Since then it has been continuously inhabited, and, as headquarters first of the Roman Empire and then of the Roman Catholic Church, it has had an immense impact on the world.

## Welcome To Civitavecchia, Italy

Civitavecchia is a province and principal port and gateway to Rome located in the central Italian region of Lazio on the Tyrrhenian Sea. Civitavecchia was built during the period between 107-108 BC by order of Traiano and was originally known as Centumcellae.

In the Imperial age the town reached its maximum splendor and became an Episcopate until the period between AD 537 and AD 538. In the 8th century the town fell under the region of the popes and in AD 828 it was conquered by the Saracens. At this time it was transformed into a military base against Rome. In AD 889, the Saracens abandoned the coast and the town became known as Civita Vetula (Civitavecchia). Civitavecchia means "ancient town" and is known as the Port of Rome. In the beginning, Rome was governed by Kings. Two consuls ruled Rome, who were elected each year by the Senate. Military power and political influence made Rome one of the most important cities in the Western world for several hundred years.

In AD 312, Christianity had been established as the official state religion of the Roman Empire. Eventually, Rome became the center of the Roman Catholic Church and home of the pope.
