WELCOME TO HONOLULU!

Geological evidence indicates Honolulu, Oahu evolved two million years ago after the formation of two separate volcanoes. King Kamehameha I (1753 - 1819) unified the islands under one rule and established his palace near what is now King Street. In 1866, Mark Twain said that every step in the city revealed a new contrast. At one time Waikiki was a swampy marshland of taro patches and rice patties. The land was reclaimed in the early 1900s. Tourism began when the first hotel was built in 1901, the Moana Hotel. Honolulu means, "sheltered bay" in Hawaiian. Honolulu has the only natural harbor in the islands formed by fresh water. Oahu is the third largest island in the Hawaiian chain and has two large backbone mountain ranges with green vegetation.
